

HYTHERM EXTRA

Introducing Hytherm Extra from Glasscraft. This advanced sealed unit combines superior thermal insulation with exceptional solar control, setting a new benchmark in energy efficient glazing.

Featuring an advanced performance Low-E soft coat, Hytherm Extra significantly boosts energy efficiency and achieves improved U-values, ensuring optimal comfort year-round. Designed to keep rooms cooler in summer and warmer in winter, it offers a substantial upgrade from standard specifications, making it the ideal choice for modern, sustainable living.
