

## OBSCURE PATTERN GLASS

## Glasscraft has a range of obscure, patterned and privacy glass in the designs below.

**2 Minster**

**3 Autumn**

**4 Stippolyte**

**4 Contora**

**5 Everglade**

**5 Cotswold**

**5 Satin**

All patterns are available in 4mm glass and can be toughened if required, some patterns are available in 6mm and 6.8mm laminate.

Obscure glass is available in sheet sizes of 1320mm x 2140mm. Satin is available in 3210mm x 2250mm.

Requests for widths greater than 1320mm e.g. 1400mm x 1200mm can be accommodated by turning the sheet, thereby altering the direction of the pattern.

In such cases it must be specified that all the units are in effect running the same way, for all pattern glass being glazed in the same job.
